Share of Total Revenue by Customer Segment

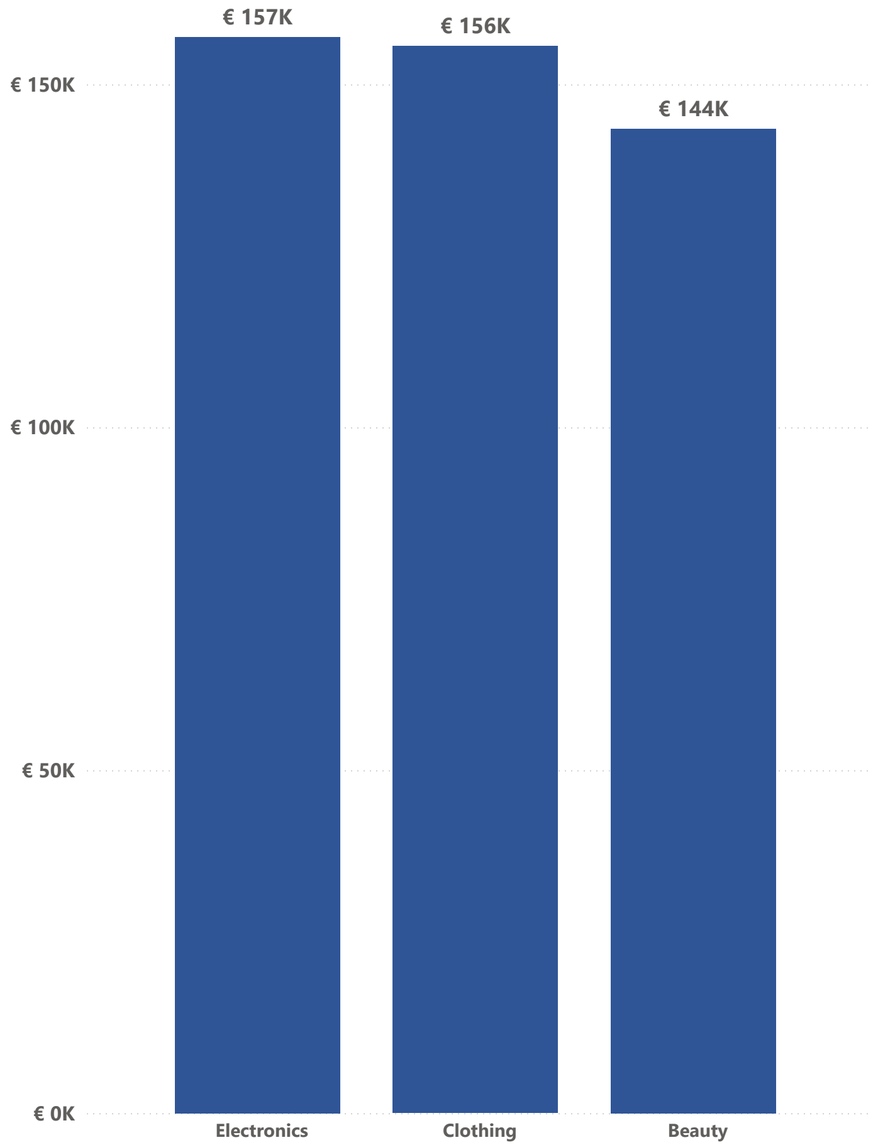

Product Preferences Vary Significantly Across Age Group

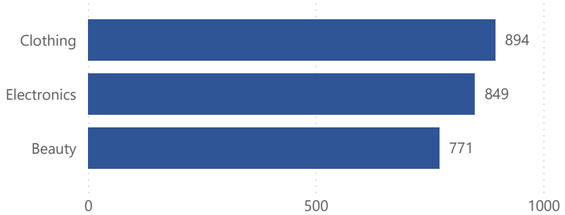

Retail Sales Analytics & Insights- 2023

(Product Insights)

Electronics Is the Primary Revenue Driver

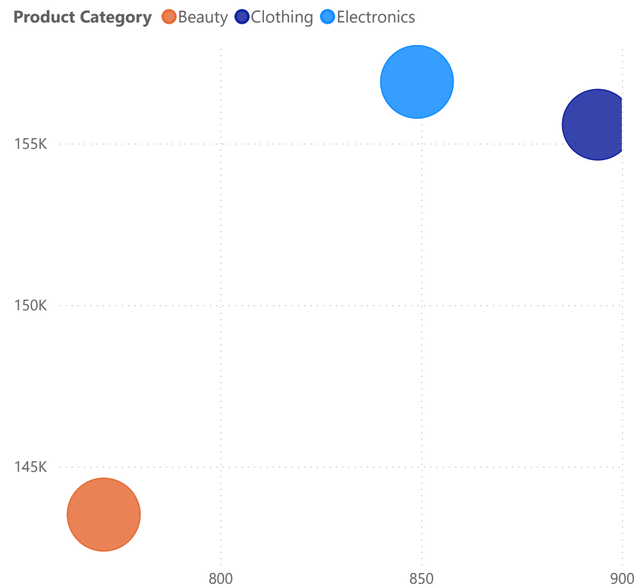

Revenue Leadership Is Driven by Price, Not Sales Volume

Key Product Insights

- Electronics lead revenue despite lower unit pricing- volume driven
- Beauty shows strongest revenue per unit- premium positioning
- Clothing balances volume and price- stable category

Revenue vs Units Sold by Product Category

Beauty products generate higher revenue per unit despite lower sales volume, indicating premium positioning.
